

LET'S HELP WILDLIFE TOGETHER

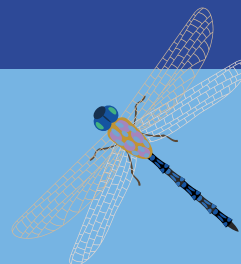

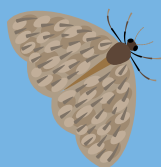

HOW TO MAKE A SIMPLE BUG HOTEL

YOU WILL NEED

A large plastic bottle
Sticks
Pinecones
Pine cones
Bark

And anything else you can find
- bamboo with its holes is great too

🕒 Total time: 15 minutes

STEP BY STEP

1. Cut the bottle down to size
2. Check what materials you have and arrange by size and texture - some smaller and some larger items this will attract different bugs to your hotel
3. Decide on the insect hotel location and add twine to hang
4. Make the insect hotel nice and cosy, stuff it to make it nice and firm, so it doesn't get blown about
5. Share your bug hotel with us on Social Media!

TOP TIP!

Create various hotels and position them at different heights in your garden to encourage different creatures.

You can make a large bug hotel from stacking wooden pallets on top of one another!
